

Information for producers for the implementation of the EU-Battery-Directive (EU-BattVO)

amendments due to EU-BattVO

The amendments coming into effect on 18.08.2025 will have the following consequences:

overview of the key aspects :

- 3 types of batteries turn into **5 categories of batteries**
- producer responsibility through obligation to participate in an „**Organisation für Herstellerverantwortung**“ (OfH) for **each single category of battery**
- necessary statement of chemical components of the batteries as well as of your Steuer-ID
- foreign producers without a German branch must appoint an **authorised representative**
